Description			
In this morning's meeting, it was mentioned that it would be nice to have metric output in the TRACE buffers.			
In artdaq_utilities:feature/TRACE_Metric, I have implemented a simple Metric plugin which outputs metric data to TRACE.

Something that would be nice to look at in the future would be some ability to apply metrics to trace levels in a deterministic fashion such that the same metric always appears on the same trace level, across applications and runs.
