

Elog - Bug #20804

Modified Date - DESC Out of Order

Description			
<p>Tonight those of us displaying the ELog Modified Date - DESC see that Hayden has a note at the top of the page. I can't find any evidence that should be the case. The hover for modified time seems to be broken or disabled. The hidden modifiedDate span shows the same time as the createDate. The entry also doesn't have the modified class like other entries that appear to be working correctly.</p>
