

LArSoft - Bug #21002

PhotonBackTracker OpFlash Matching Prep is broken

10/03/2018 10:47 AM - Jason Stock

Description

The OpFlash Matching in the photon back tracker does not function (the prep of OpFlash/OpHit relations is not retrieving needed data).

This is not a high priority bug as these functions are not in use yet, but this does need to be addressed. I will try to get to this in the next couple weeks.
