Description

TO check for Located, it should use the file pattern on the dependencie(s) that lead away from here, if there are any, and the job type pattern as a fallback

This may be an interesting query...

Revision fa7a5bc9 - 11/09/2018 12:31 PM - Marc Mengel

first stab at fix for #21336

History

#1 - 11/08/2018 07:27 PM - Marc Mengel

- Target version set to v4_0_2

#2 - 11/09/2018 11:32 AM - Marc Mengel

- Description updated

#3 - 11/12/2018 02:26 PM - Marc Mengel

- Status changed from New to Resolved

Now getting the file pattern bits from the dependency if present, and the job type if no dependencies are there (although why we care if there are no dependencies is an interesting philosophical question..)

#4 - 11/13/2018 11:16 AM - Stephen White

- Status changed from Resolved to Closed
