<b>Experiment:</b>	-		
<b>Description</b>			
Right now, when the transfer_driver_* tests fail, there is not much information captured in the output about the cause of the failure. Instead of calling exit from TransferTest, the return code should be propagated up to the caller, so that appropriate log messages can be generated.			

#### History

##### #1 - 02/04/2019 11:25 AM - Eric Flumerfelt

- Assignee set to Eric Flumerfelt
- Status changed from New to Resolved
- Category set to Additional Functionality

##### #2 - 02/04/2019 11:25 AM - Eric Flumerfelt

- Category changed from Additional Functionality to Needed Enhancements
