

GlideinWMS - Bug #21989

Make attribute publishing independent from other properties

02/27/2019 10:40 AM - Marco Mambelli

Status:	New	Start date:	02/27/2019

Target version:	v3_5_2	Spent time:	0.00 hour
First Occurred:		Stakeholders:	
Occurs In:			

Description

The attributes have a series of properties that should be orthogonal (not affecting each other).
In an attribute in the factory configuration (global or in entry) attrs/attr there are many properties and these should be orthogonal.
Only the value for a property should affect the behavior advertised for it.

Specifically "publish" should determine whether the attribute is advertised to the glidefactory classad or not
Add a note to the documentation that the classad will contain the factory provided attribute. For non-constant attributes, the final value can change if the Frontend sets the value as well

History

#1 - 05/15/2019 10:33 AM - Marco Mascheroni

- Target version changed from v3_5 to v3_5_1

#2 - 08/28/2019 10:21 AM - Marco Mascheroni

- Target version changed from v3_5_1 to v3_5_2
