

Data Request Format - Feature #22087

FTP Data Requests

03/07/2019 03:24 PM - Beau Harrison

Status:	New	Start date:	03/07/2019
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
DRF should support FTP data requests.			

History

#1 - 03/07/2019 03:29 PM - Richard Neswold

DRF2 isn't about describing protocols, it's about describing data acquisition. The event field can be used by a DPM to decide to use GETS32 for slower events or FTP for faster. The RFC ([DRF3 Request for Comments](#)) also proposes an enhanced event field which allows multiple clock events, each with an optional delay.

#2 - 03/07/2019 04:27 PM - Beau Harrison

That's a good point. Should this and SNP [#22088](#) be moved to DPM?
