

## JobSub - Feature #22100

### Sanitize constraints before passing them to condor

03/08/2019 02:41 PM - Shreyas Bhat

<b>Stakeholders:</b>			

#### Description

Laid out in [#22099](#) is a scenario where an improper constraint was passed to condor by the jobsub server, and the result was that thousands of jobs were removed by one command. Come up with a sanity check of constraints passed in, so we make sure we're only passing in ones that make sense.

Examples are:

- There should never be a "=". It should be "=="

We're having a meeting in a few days to discuss other examples. They'll be added to this ticket as we see fit.

#### History

#1 - 05/17/2019 12:30 PM - Dennis Box

- Target version set to v1.3.2

- Assignee set to Shreyas Bhat
