

Production Operations Management Service (POMS) - Bug #22162

cloning sample files needs to fix experiment= and actually fix the name

03/19/2019 09:43 AM - Marc Mengel

Status:	Closed	Start date:	03/19/2019
Priority:	Normal	Due date:	
Assignee:	Marc Mengel	% Done:	100%

Target version:	v4_1_1	Spent time:	0.00 hour
First Occurred:		Experiment:	-
Scope:	Internal	Stakeholders:	

Description

Right now, cloning the sample workflows only works for samdev, because the sample .ini files say experiment=samdev

We have a clone button, but it doesn't fix this...

History

After some finagling, cloning sample campaigns is working in release/v4_1_1 and develop branches.

Needed to:

- mark the items "dirty" (by putting a wrong hash value in the form attributes) so they would get saved
- add login_setups and job_types from the .ini file dump to the pulldowns list, as well as the ones from the databases.
- some debug logging and error handling in save_campaigns

#4 - 04/11/2019 09:52 AM - Marc Mengel

- % Done changed from 0 to 100

- Status changed from New to Resolved

#5 - 04/17/2019 11:42 AM - Stephen White

- Status changed from Resolved to Closed
