Description

This feature is to introduce a new template of CI dashboard similar to the CI test dashboard.

This new CI dashboard template will not depend on the CI phase name, but it could be activated by a dedicated attribute of the CI phase.

This new template will be used to collect correlated logs under a **tag name**, similarly to what we are doing for CI tests logs.

Each of such a **tag name**, will have associated a status.

This template will have a bar to report the status for each **tag name**.

The **tag name** used here, will be something equivalent to CI test names.

History

#1 - 07/18/2019 05:03 PM - Vito Di Benedetto

- Start date changed from 04/15/2019 to 07/18/2019

- Due date set to 07/18/2019

#2 - 07/24/2019 02:26 PM - Vito Di Benedetto

The attribute to select this dashboard template is **generic_template**.

This attribute will be optional and its value can be either **0** or **1**.

If its value is **1**, this template will be used.

#3 - 07/24/2019 02:32 PM - Vladimir Podstavkov

- % Done changed from 0 to 70

- Status changed from Assigned to Accepted

#4 - 07/25/2019 11:07 AM - Vladimir Podstavkov

- % Done changed from 70 to 90
