Description			
<p>This intention of this Issue is to track merges from the develop branches in various artdaq-related repositories to the for_dune-artdaq branches in those repositories.</p> <p>Typically, we might not create an Issue for such operations, but it will be helpful to have a dedicated branch to do the work in, and I expect that it will be useful to have a place to capture notes.</p>			

History

#1 - 05/08/2019 11:29 AM - Kurt Biery

The first step that I'm taking is to update the product_deps files in artdaq-utilities, artdaq-core, (artdaq_mpich_plugin?,) and artdaq to match what is in the v3_04_01 release of artdaq.

The branch name that I chose to use for this Issue is feature/22543_Working_Dev2FDA_Merges.
