

project-py - Task #22711

testing with Dune analysis jobs

06/11/2019 09:49 AM - Yuyi Guo

Status:	Accepted	Start date:	06/11/2019
Priority:	Normal	Due date:	
Assignee:	Yuyi Guo	% Done:	50%
Category:		Estimated time:	0.00 hour
Target version:	v2_0_0	Spent time:	0.00 hour
Description			
We need to test to make sure that we cover Dune use cases.			

History

#1 - 06/13/2019 10:38 AM - Yuyi Guo

- Status changed from New to Accepted

#2 - 06/27/2019 09:56 AM - Yuyi Guo

- File jobsubmission.xml added

#3 - 06/27/2019 09:59 AM - Yuyi Guo

We will test for dune using the xml that is provided by Tingjun and Ajib who is working on protdune analysis.

#4 - 06/27/2019 02:55 PM - Yuyi Guo

The attached XML has metadata for SAM declaration. I had email exchanges with Tingjun regarding how should project-py handle SAM declaration. Here is what I got from the discussion.

We as Project-py will take care the SAM declaration with basic information in order for the second stage to get the input data generated by previous stage. Because analysis users will not really care about SAM declaration, So Project-py can ignore any additional metadata in the xml file for SAM declaration while we handle analysis jobs.

#5 - 07/11/2019 10:00 AM - Yuyi Guo

- % Done changed from 0 to 50

#6 - 07/23/2019 02:30 PM - Yuyi Guo

- Target version changed from v1_2_0 to v2_0_0
