

artdaq Demo - Bug #22864

when quick-mrb-start.sh fails the build, the DAQInterface settings files doesn't get the productsdir_for_bash_scripts set

07/03/2019 03:35 PM - Ron Rechenmacher

Description			
Currently we can fix the issue and re-run quick-mrb-start.sh, but it may be nicer if they are decoupled.

The quick-mrb-start.sh script at the head of artdaq-demo's feature/issue22864_build_error_wont_hurt_DAQInterface is designed to handle this. For the reviewer to get his hands on it for testing, just execute:

```
wget -O quick-mrb-start.sh https://cdcvns.fnal.gov/redmine/projects/artdaq-demo/repository/raw/tools/quick-mrb-start.sh?rev=feature%2Fissue22864_build_error_wont_hurt_DAQInterface
```

#2 - 07/25/2019 05:39 PM - Ron Rechenmacher

- Status changed from Resolved to Reviewed

I forced a compile error and checked that the settings file was OK.
I also checked that the demo builds and runs (without the forced error).

#3 - 07/25/2019 05:39 PM - Ron Rechenmacher

I also merged branch feature/issue22864_build_error_wont_hurt_DAQInterface into develop

#4 - 10/14/2019 08:17 AM - Eric Flumerfelt

- Target version set to artdaq_demo v3_06_00
