Description A recent change to CLIB requires the creation of many new ACNET nodes. We need to add two more trunks to support this feature. It would be good to support the entire range of trunk/node values rather than just add two new trunks to the table. This issues will be broken into sub-tasks to track efforts for each ACNET codebase.	
Subtasks:	
Support # 22972: Add trunks 15 and 16 to MOOC	Assigned
Support # 22973: Add trunks 15 and 16 in Linac front-ends	Assigned
Support # 22974: Add trunks 15 and 16 for IRMs	Assigned
