Description			
<p>Hi I'm am having some trouble setting up the version of opencv distributed with nu v3_01_00 (opencv v3_4_2 -q+e17 slf6):</p> <pre>... Error encountered when setting up product: opencv ERROR: Version conflict -- dependency tree requires versions conflicting with current setup of product python: version v2_7_14b vs v2_7_15a ...</pre> <p>Is there a version of opencv ~ v3_4_2 e17 slf6 which is compatible with python v2_7_15a ? If not, can I request such a version?</p> <p>Thanks, Cathal</p>

Update : opencv v3_4_2a seems to be compatible, so that should be sufficient.
