Target version:		Spent time:	1.00 hour
Experiment:	SBND	Co-Assignees:	

Description

Earlier this year, the MergeSimSources module in larsim was removed as it was no longer being used.

This module is now needed to generate MC in SBND and ICARUS. We would like to have this module added back in.

There is a feature branch of larsim (feature/gputnam-MergeSimSources) that has this module restored. This branch also includes a fix for a bug in the previous MergeSimSources module (AuxDetSimChannels were not merged correctly). Please let me know if you would like me to make any changes to this branch before merging it into larsim.

History

#1 - 01/06/2020 10:40 AM - Kyle Knoepfel

- Status changed from New to Feedback

This request is reasonable. Can you please run the CI tests to ensure that it works as expected? If there are no problems, the feature branch will be accepted for this week's release.

#2 - 01/06/2020 12:19 PM - Gray Putnam

Just submitted the CI tests!

#3 - 01/07/2020 09:48 AM - Lynn Garren

- Estimated time set to 4.00 h

- Assignee set to Lynn Garren

- Status changed from Feedback to Assigned

Found the CI results. It all looks good.

#4 - 01/13/2020 11:21 AM - Lynn Garren

- % Done changed from 0 to 100

- Status changed from Assigned to Resolved

This is part of larsoft v08_39_00.

#5 - 02/10/2020 10:55 AM - Lynn Garren

- Status changed from Resolved to Closed
