

## artdaq - Bug #24249

### Online Monitor art processes disconnect after first subrun in subrun\_example

03/30/2020 01:16 PM - Eric Flumerfelt

<b>Status:</b>	New	<b>Start date:</b>	03/30/2020
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Co-Assignees:</b>	
<b>Experiment:</b>	-		
<b>Description</b>			
When running the subrun_example simple_test_config, the online monitors end their run after the first subrun. It would probably be most correct for the online monitors to continue through all subruns and end at the end of the run (unless the multiple_runs parameter is true, in which case they should continue until explicitly shut down).
