GlideinWMS - Bug #24315

Change the default Singularity image, added rhel8

04/14/2020 04:12 PM - Marco Mambelli

Status:	Closed		**Start date:**	04/14/2020
Priority:	Normal		**Due date:**

Target version:	v3_6_3		**Spent time:**	0.00 hour
First Occurred:			**Stakeholders:**	OSG
Occurs In:				

Description

Default singularity images are listed both in the GWMS documentation (Frontend) and in the code.
A recent cleanup of the published images removed the current default image from CVMFS.
The Fermilab published images should become the new default so there is more control over their availability.

History

#1 - 05/07/2020 10:17 AM - Marco Mambelli

- Assignee changed from Marco Mambelli to Marco Mascheroni

- Status changed from New to Feedback

- Category set to Glidein

Changes are in v36/24315
Updated and made consistent the singularity images default
I'm still using the OSG images from OSG, I added the rhel8 image
rhel7:/cvmfs/singularity.opensciencegrid.org/opensciencegrid/osgvo-el7:latest,rhel6:/cvmfs/singularity.opensciencegrid.org/opensciencegrid/osgvo-el6
:latest,rhel8:/cvmfs/singularity.opensciencegrid.org/opensciencegrid/osgvo-el8:latest

I verified the images in CVMFS and they do exist and are current as of today
So it seems that the images if at all were removed only temporary.
