

GlideinWMS - Bug #24404

Introduce pre and post reconfigure hooks

05/12/2020 03:32 PM - Marco Mascheroni

Status:	Resolved	Start date:	05/12/2020
Priority:	Immediate	Due date:	
Assignee:	Marco Mascheroni	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	v3_6_3	Spent time:	0.00 hour
First Occurred:		Stakeholders:	Factory Ops
Occurs In:			
Description			
Give the ability to run arbitrary scripts before and/or after each reconfigure command could be very useful. E.g., one can run OSG_autoconf to generate the factory configurations from the collector, or one can run the manual_glidein_startup script to generate a wrapper for site admins (now in a cron http://gfactory-itb-1.opensciencegrid.org/vacuum/).

- Priority changed from Normal to Immediate

- Assignee changed from Marco Mambelli to Marco Mascheroni

- Status changed from Resolved to Work in progress

There's a missing import. Pylint failing.

It seems it has been merged to master with the error.
