

GlideinWMS - Feature #25073

Allow VO scripts to run before the job (in Singularity if used)

10/14/2020 10:50 AM - Marco Mambelli

Status: Assigned	Start date: 10/14/2020
Priority: Normal	Due date:
Assignee: Bruno Coimbra	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version: v3_7_4	Spent time: 0.00 hour
Stakeholders:	
Description The GWMS wrapper will run some VO scripts before the job <ul style="list-style-type: none">• support both sourcing (changes the local environment) and running (can add files)• should these run also in the test/setup scripts? Probably yes, can we assure order so they are there? NOTE: these scripts will run in the Singularity environment, so they will have no access to all the glidein resources and glidein_config	
Related issues: Related to GlideinWMS - Milestone #25516: Reorganize scripts to consider time... New 02/15/2021 Blocked by GlideinWMS - Feature #21885: Support to run test and periodic scri... Resolved 02/11/2019	

History

#1 - 10/14/2020 10:50 AM - Marco Mambelli

- Related to Feature #21885: Support to run test and periodic scripts within Singularity added

#2 - 10/19/2020 02:27 PM - Marco Mambelli

- Subject changed from Allow VO scripts to run in Singularity before the job to Allow VO scripts to run before the job (in Singularity if used)

Look for gwms25073 in the TODO: comments in the code

Folder: ./gwms/exec/...

Example setup_prejob.sh, isolated to make it easy to allow VO's pull requests

Should these fragments run also before other test scripts?
