| <p>Hello, I'd like a new release of geant4reweight for larsoft and NOvA from the head of develop (Note: I just pushed a few commits today that I'd like to be in the release).</p> <p>For NOvA, consider the following request/requirements</p> <ul style="list-style-type: none">- an s85:e17 version which sets up nug4 v1_02_02_01-an s97:e19 version which sets up a (I think) not-yet-existing version of nug4 (perhaps call it v1_02_03_01), which sets up a not-yet-existing version of geant4 (perhaps call it v4_10_4_p02ca) which contains the patch described here: https://cdcv.s.fnal.gov/redmine/issues/24899#change-78630 <p>Thanks</p> | | | |
