Description			
<ul style="list-style-type: none">• Build into the factory an option to do like Condor and send a summary classad up to a central collector• Similar to what Condor does with CONDOR_DEVELOPERS_COLLECTOR• We need to let people disable it for the paranoid• Enable it by default?			

History

#1 - 03/21/2012 10:52 AM - Burt Holzman

- Priority changed from Normal to Low

I like this idea -- might be interesting to see a lower bound on world-wide glideins that are executing. I wonder if we could do this on the cheap by just using CONDOR_DEVELOPERS_COLLECTOR and setting it to one of ours.

#2 - 03/21/2012 10:53 AM - Igor Sfiligoi

What information do you want to collect?

If you are interested in the running glideins, you already get this from the VO collectors... (using exactly the mechanism you are referencing above)

If that's not it, what are you looking for?

Igor

#3 - 03/26/2012 04:06 PM - Burt Holzman

- Assignee set to Parag Mhashilkar

- Target version set to v2_5_7

Igor suggested making a worldwide monitor that aggregates the XML from all the VO frontend web -- the code is basically already there, so this should be straightforward.

#4 - 04/02/2012 03:54 PM - Burt Holzman

- Target version changed from v2_5_7 to v2_7_x

#5 - 06/24/2013 03:36 PM - Parag Mhashilkar

- Target version changed from v2_7_x to v3_x
