

NOvA - Feature #283

Ease creation of new modules

02/06/2010 10:12 AM - Mark Messier

Status:	New	Start date:	02/06/2010

Target version:			
Description			
The process of generating the boilerplate code for a new module could be automated fairly easily. Perhaps we need a script of some such in JobControl which would do this. I think this was done for MINOS.
