

## TissueV2 - Feature #2863

### add email and json interface for detecting pending remediations

08/01/2012 09:51 AM - Lauri Carpenter

<b>Status:</b>	New	<b>Start date:</b>	08/01/2012
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>	Lauri Carpenter	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
<ul style="list-style-type: none"><li>- add email notification when an event is remediated and is not auto-approved (that is, whenever there is a pending remediation).</li><li>- question: who should the mail be sent to? Detector admin/contact? ExemptionAdmin? ExemptionAdmin and everybody who can be an ExemptionAdmin (that would be the ExemptionAdmin, SecurityAdmin, and TissueAdmin, ugh, not a good option).</li><li>- add json API for querying number of pending remediations</li></ul>			
This is LOW priority but should be added when we get back to making Tissue changes post NCIS-deployment.
