Need :

nedit

Get stuff from /data/minsoft/mcr/ControlRoomSoftware/bin into
/home/minos/bin ??

Added mindata account on minos-admin
chown mindata /grid/data/controlroom (lacking minos account offline)
Should get minos account and chown later

```
/data/localminsoft # minsoft login area,  
symlinked by /data/minsoft  
/misc/mcr  
symlinked by /data/mcr, but empty
```

```
for convenience, chmod 755 /home/minos
```

```
chmod 755 /data/localminsoft/mcr/include/TriD/fonts permission
```

```
du -sm /data/localminsoft  
437 /data/localminsoft
```

Tarring minsoft,
tar: ./viminfo: Cannot open: Permission denied

Found many minsoft files owned by root

```
As root,  
find /data/localminsoft -user root -exec ls -ld {} \;  
find /data/localminsoft -user root -exec chown minsoft. {} \;
```
