

## SAM-MAIN - Idea #3391

### Change CORBA nameservice from Orbacus to omniORB

01/31/2013 06:35 PM - Robert Illingworth

<b>Status:</b>	Assigned	<b>Start date:</b>	01/31/2013

<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
<p>The CORBA nameservice is currently from an extremely ancient version of Orbacus, which won't even compile on modern systems. OmniORB comes with a nameservice implementation, and it would be preferable to switch over it. Arguably this is really a data preservation project, since the plan is for SAM to drop CORBA, leaving D0 calibration as the only user, but that won't happen for a while (and it probably comes down to the same people anyway).</p>
