Description

Implement ECL client for mobile devices - smartphones, tablets, iOS and Android.
Client should allow:
1. Post an entry with attached pictures
2. Basic view of entries
3. User authentication

History

#1 - 06/05/2013 04:01 PM - Igor Mandrichenko

- % Done changed from 0 to 50

iOS app is released.
Android is till to do

#2 - 06/29/2016 04:22 PM - Margherita Vittone Wiersma

- Status changed from New to Closed

We are closing it, considering that people   can use browser from smartphone,tablets etc to post entry
and considering that many upgrades have happened since 3 years in smartphones OS.
