Dark Energy Spectroscopic Survey [DESpec] - Idea #3731

re-organizing input parameters

04/19/2013 09:11 AM - Brian Nord

Status:	Feedback		**Start date:**	04/19/2013

Target version:	April 2013			

Description

I think we should re-arrange our parameter files.
1.) some functions use parameters that are currently set by other functions; see the attached paper draft, Figure 1 and Table 1
2.) if individual param files are
3.) individual param files for individual functions means tracking down a lot of things at any given time.

So, what do you thinking of moving to one big param file as the default?

And, what do you think of re-naming the paths according to new data groups (please see Figure 1 and Table 1 of the paper draft).
