

NuMI Beam Simulation - Support #3918

Merge NOvA, Minerva branches onto HEAD

05/22/2013 11:20 PM - Robert Hatcher

Status:	New	Start date:	05/22/2013
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Relevant code from the nova and minerva branches need to be merged onto the HEAD branch in anticipation of a unified product of one single g4numi and flugg executable that can be used by the joint NuMI beam group to generate tuples used as a baseline by all NuMI experiments.
