

Electronic Collaboration Logbook - Feature #3968

Form builder - conditional fields

05/31/2013 10:33 AM - Igor Mandrichenko

Status:	New	Start date:	05/31/2013
Priority:	Low	Due date:	
Assignee:	Margherita Vittone Wiersma	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Experiment:			
Description			
Art Kreymer (MINOS):			
Please add the ability to hide or show named collections of fields in ECL forms based on the input to earlier fields in the form.			
For specific examples, see the Minos forms Start_Shift - 'At' BeamCheckList - 'Beam Profiles in Range'			
This will help Minos migrate its old HTML forms to native ECL forms. Automatic migration is not necessary. This feature will help us keep the look and feel of the old forms as we design new replacements.			

History

#1 - 05/31/2013 10:36 AM - Igor Mandrichenko

Same request came from NOvA (Jon Paley) long time ago

#2 - 07/14/2014 04:48 PM - Igor Mandrichenko

- Assignee set to Stephen White

#3 - 09/19/2014 12:00 PM - Igor Mandrichenko

- Priority changed from Normal to High

#4 - 06/30/2016 11:36 AM - Margherita Vittone Wiersma

- Assignee changed from Stephen White to Margherita Vittone Wiersma

- Priority changed from High to Low

We will investigate if CSS dynamic features could help on this.

#5 - 07/05/2016 02:11 PM - Margherita Vittone Wiersma

Check on css dynamic features and see if it could help instead of recurring to customization with javascript.
BTW, MINOS is done, but we keep this since it might be useful for other users.
