### Description

William Budget:

In the new ECL format, when you expand the view,
the action does not seem to be persistent.  If you
add an entry, the ECL goes back to the collapsed view.

Could you please make expanded view persistent
across changes?

Thanks

### History

**#1 - 07/10/2013 11:15 AM - Igor Mandrichenko**

Original SNOW ticket: RITM0063908

**#2 - 04/23/2014 09:23 AM - Arthur Kreymer**

The problem reported last year seems to have been resolved.
This issue can probably be closed.

I just added http://dbweb3.fnal.gov:8080/ECL/minos/E/show?e=120560
to the Minos ECL, running ECL Version 5.3.

The state of expended/collapsed items did not change.
