| Need to have "erase after" work for files that aren't actually transferred to tape. (example is fcl files where live only on central disk but are registered with SAM) |                    |                        |            |

#### History

**#1 - 07/26/2013 01:39 PM - Robert Illingworth**

- Tracker changed from Bug to Feature

**#2 - 08/05/2013 10:49 AM - Robert Illingworth**

- Target version set to v3\_7

**#3 - 08/19/2013 02:48 PM - Robert Illingworth**

- Status changed from New to Closed

- Assignee set to Robert Illingworth

Implemented in [72bb8f6](#) and [5a2c266](#). There's a new config parameter erase-archived-on-tape-only which defaults to true. When false, the existence of any disk location is considered enough to erase the input file.
