Description

The picture thumbnails in their current size are next to useless. Why bother. Please increase the thumbnail size, proportional to original is good, or allow user to set the size.

The average thumbnail size has gotten larger with the implementation of a fixed height aspect ratio for thumbnails. The only thumbnails that were not increased were those whose height is greater than their width, which is not the vast majority of plots.

I think the solution implemented is adequate. There was a problem with the caption not utilizing all of the thumbnail width, but the latest release fixed this.
