

IF Data Handling Client Tools (ifdhc) - Feature #4677

ifdh_fetch needs "help"...flag

09/24/2013 02:04 PM - Andrew Norman

Status:	Closed	Start date:	09/24/2013

Target version:	v1_3_0	Spent time:	1.00 hour
Description			
ifdh_fetch currently has no intrinsic help info that I could find.			
Could we add a default help message and a -h or --help flag to the program so that the user can dump out the proper invocation.			
Currently using -h or --help gives the following:			
<pre>[anorman@novagpvm07 NOVA-OFFLINE]\$ ifdh_fetch --help found file on bluearc doing: ifdh cp /--help ./--help LOCK - Tue Sep 24 18:56:00 UTC 2013 lock /grid/data/nova/LOCK/LOCKS/20130924.18:56:00.0.novagpvm07.9808.anorman.anorman Couldn't getGssCredential. srm client error: org.globus.gsi.CredentialException: proxy not found LOCK - Tue Sep 24 18:56:03 UTC 2013 freed /grid/data/nova/LOCK/LOCKS/20130924.18:56:00.0.novagpvm07.9808.anorman.anorman</pre>
