<b>Description</b>			
Set up monitoring with check_mk/Nagios, including notifications and Service Now ticket generation.			

### History

#### #1 - 11/25/2013 02:36 PM - Bonnie King

Notifications temporarily disabled due to SNow storm. Need to tune notifications, and solve problem with receiving double emails from Service Now (problem is with SNow mail queueing system).

#### #2 - 02/10/2014 01:02 PM - Bonnie King

MINOS DAQs are being monitored with tickets cut in dev. Need to fix parent-child relationships to eliminate redundant alerts.
