

art - Bug #5157

Erroneous complaint about unused module.

01/07/2014 11:55 AM - Andrei Gaponenko

Status:	Closed	Start date:	01/07/2014
Priority:	Low	Due date:	
Assignee:	Christopher Green	% Done:	100%
Category:	Application	Estimated time:	2.00 hours
Target version:	1.09.00	Spent time:	1.00 hour
Occurs In:		Experiment:	Mu2e
Scope:	Internal	SSI Package:	art

Description

I noticed in art output:

```
The following module labels are not assigned to any path:  
'fullOutput', g4status'
```

While "fullOutput" is indeed not used in the job, "g4status" is run. The fcl file in question is in Mu2e offline CVS, tag v4_0_9, filename JobConfig/TDR/MothersToHits.fcl
The relevant piece of code:

```
g4StatusFilter : [g4run, "!g4status", compressPVFull ]  
trigger_paths : [detPath, crvPath, g4StatusFilter]
```

Also note the unpaired single quote in the warning message.

Andrei
