#### Description

If you invoke the startup scripts (frontend\_startup, factory\_startup) as the wrong user, e.g. do a reconfig operation as root, they will change ownership of some files corrupting a previously working frontend/factory.

I'd like to add a check to both of them:

- if they are invoked by a user that does not own the XML config file in the working directory (not the one in the config dir or /etc), then they print an error message and exit

This could be a feature/safeguard if you imply the admin is behaving always correctly.

#### History

##### #1 - 02/06/2014 09:33 AM - Parag Mhashilkar

- Target version set to v3\_2\_5

My comment in [#5351](#) on starting and stopping services is probably more appropriate here.

##### #2 - 02/24/2014 03:28 PM - Marco Mambelli

Discussed in meeting 2/24: it is like a init script. if root, do an su to the right user

##### #3 - 03/10/2014 03:19 PM - Marco Mambelli

- Target version changed from v3\_2\_5 to v3\_2\_4

- Parent task set to #5071

Duplicate addressed in 5071

##### #4 - 04/02/2014 04:08 PM - Marco Mambelli

- Status changed from New to Closed

See 5071 for details. Merged in branch\_v3\_2, ready for v3\_2\_4rc1 release
