art - Bug #5427

Output file renaming doesn't fill run/subrun number for files with no events

02/12/2014 11:22 AM - Christopher Backhouse

Status:	Closed	**Start date:**	02/12/2014
Priority:	Normal	**Due date:**

Category:	I/O	**Estimated time:**	0.00 hour
Target version:	1.09.00	**Spent time:**	4.00 hours
Occurs In:		**Experiment:**	NOvA
Scope:	Internal	**SSI Package:**	art

Description

For files with no events, or with all events filtered out, output file renaming puts "-" for the run and subrun number.

Can we have the correct run and subrun recorded instead? This information is still available in the file even though there are no events.

The current behaviour is very bad for bookkeeping purposes.

Test and fix for issue #5427

History

#1 - 02/20/2014 04:53 PM - Christopher Green

- Category set to I/O

- Status changed from New to Resolved

- Assignee set to Christopher Green

- Target version set to 1.09.00

- % Done changed from 0 to 100

- Experiment NOvA added

- Experiment deleted (-)

- SSI Package art added

- SSI Package deleted ()

This behavior has been corrected with 5d249ebddca52ca06b4875635f8e6b35dd282ceb.

There is one caveat: if there are runs but no subruns or events, then %s and %S will still substitute -.
