

Node Registration V2 - Bug #5445

Adding downstream relationship to a cluster

02/14/2014 04:02 PM - James Frömm

Status:	New	Start date:	02/14/2014
Priority:	Normal	Due date:	
Assignee:	Michael Baker	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>When adding a downstream relationship to a cluster, it defaults to a 'used by' relationship... yet the 'contained by' relationships show up in that section of the cluster page too... adding the 'used by' relationship does propagate down to equipdb as a cluster membership. This seems like an opportunity for a mess.</p>
