Description			
Maybe this could be done simply by adding 7 more buttons for Sunday - Saturday? We could have something like:			
Current: (Day) (Week) (Month)			
Partition: (0) (1) (2) (3)			
Archive: (Sunday) (Monday) (Tuesday) ... (Saturday)			
Partition: (0) (1) (2) (3)			
But is this too many buttons? Maybe this should just be a separate page. We don't want the current page to have to load all of that stuff...
