preCloseOutputFile service hook

03/03/2014 03:39 PM - Adam Aurisano

Status:	Closed	Start date:	03/03/2014
Priority:	Normal	Due date:	
Assignee:	Christopher Green	% Done:	100%
Category:	I/O	Estimated time:	2.00 hours
Target version:	1.09.00	Spent time:	1.00 hour
Scope:	Internal	SSI Package:	art
Experiment:	NOvA		

Description

Can we get a preCloseOutputFile service hook? There is already a corresponding postCloseOutputFile hook. The use case would be to create a service to manage NOvA metadata. Our current model uses a module, but this approach doesn't allow us the flexibility to easily insert metadata into non-art outputs (i.e. summary files or histogram files).

History

#1 - 03/11/2014 01:47 PM - Christopher Green

- Category set to I/O
- Status changed from New to Feedback
- Assignee set to Christopher Green
- Target version set to 1.09.00
- Estimated time set to 2.00 h
- SSI Package art added
- SSI Package deleted ()

What information would you need? Given the exigencies of output file renaming, we cannot easily provide the name of the file before it is closed. Is this acceptable, or do we need to find a way?
