ORKA ILCroot - Bug #5670

ROOT lacks GDML support

03/17/2014 01:33 PM - Brett Viren

Status:	New	**Start date:**	03/17/2014
Priority:	Normal	**Due date:**	
Assignee:	Brett Viren	**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:	v1-0-1		

Description

Need to add -Dgdml=ON to prepare_cmd_options in the section [root] of the worch config file.

In-place rebuilds for testing will likely need to do:

```
rm tmp/controls/root_{prepare,build,install}
```

Next release needs to include this.
