JobSub - Bug #5767

jobsub_fetchlog times out when downloading large sandboxes

03/26/2014 11:55 AM - Parag Mhashilkar

Status:	Closed		**Start date:**	04/11/2014

Description

The curl timeout used by default is too small for fetchlogs. It could take few mins for the server to tar the entire sandbox. Investigate if there is a way to stream the output rather than waiting for the entire sandbox to be tarred up and downloaded. We atleast need a --timeout option in the time being for the fetchlog

Subtasks:

Feature # 5879: Add --timeout options to jobsub_fetchlog.py	**Closed**
