

MINERvA Software Infrastructure - Review Request #6145

Review Request # 6135 (New): Data Management Workflow Umbrella Task

Support # 6131 (Closed): Make samweb understand old SAM metadata / produce new samweb format data where appropriate

SAM - samweb compatibility

05/02/2014 10:43 AM - Gabriel Perdue

Status:	Closed	Start date:	05/02/2014

Target version:		Spent time:	0.00 hour
Description			
The data handling group within SCD should provide the following capability: a. Provide an interface for SAMWeb to understand the older .py SAM files for backwards compatibility with existing Minerva production files. b. A conversion utility to convert metadata between .py and .json formats should be developed to allow for porting of older code.
