Target version:	v1_4_3	Spent time:	0.00 hour
Description			
Hello,			
The --force=gridftp option to "ifdh cp" does not work with the "-f filelist" option:			
\$ ifdh cp --force=gridftp -f /mu2e/app/users/gandr/prestage-spec.txt			
Exception:error reading list of files file: -f			
\$ ifdh cp -f /mu2e/app/users/gandr/prestage-spec.txt --force=gridftp			
does not complain about the input list, but gives the same error as when not forcing gridftp at all.
