

JobSub - Bug #6660

failure to authenticate leaves garbage files in .security directory

07/22/2014 02:11 PM - Dennis Box

Status:	Closed	Start date:	07/22/2014
Priority:	Normal	Due date:	
Assignee:	Dennis Box	% Done:	100%

Target version:	v1.0	Spent time:	3.00 hours
First Occurred:		Stakeholders:	
Occurs In:			

Description

To avoid race conditions, krb5cc and x509 proxies are written to temp files and if the process was successful the tempfile is moved over the existing file. When the user fails to authenticate files like this are currently being left behind:

```
rw—— 1 rexbatch fife 0 Jul 1 14:22 krb5cc_dbox_sjTW9Q
rw—— 1 rexbatch fife 0 Jul 1 14:22 krb5cc_dbox_Lu5nUG
rw—— 1 rexbatch fife 0 Jul 1 14:22 krb5cc_dbox_J05AG
rw—— 1 rexbatch fife 0 Jul 1 14:22 krb5cc_dbox_6BKr4U
rw—— 1 rexbatch fife 0 Jul 1 14:22 krb5cc_dbox_Og67Xh
rw—— 1 rexbatch fife 0 Jul 1 14:22 krb5cc_dbox_BqH9E0
rw—— 1 rexbatch fife 0 Jul 1 14:22 krb5cc_dbox_fNDNa
rw—— 1 rexbatch fife 0 Jul 1 14:22 krb5cc_dbox_fOVDfj
```

This is not critical but is annoying.
