| Spawned from the idea that there are always people that want to be informed about things like power outages, and in many cases it's not a priority to contact the entire universe and recover from a power outage. Can we implement a way to to distribute elog messages into a listserve mail that concerned folks can subscribe too. |             |                        |                   |
