**Description**

git help <command> doesn't work:

$ git help checkout
No manual entry for git-checkout

**History**

**#1 - 08/01/2014 12:56 PM - Lynn Garren**

*- Project changed from LArSoft to cet-is*

*- Status changed from New to Feedback*

I am unable to reproduce this problem on uboonegpvm01.  Where do you see this?

**#2 - 11/21/2016 11:49 AM - Kyle Knoepfel**

*- Status changed from Feedback to Closed*

We have verified that this is working for an installation of a recent git version on uboonegpvm01.  If the problem recurs, please open a new issue.
