

JobSub - Feature #6839

Pass arguments from jobsub_* to condor

08/20/2014 03:36 PM - Gerard Bernabeu Altayo

Status:	New	Start date:	11/05/2015

Target version:	v1.3.2	Spent time:	0.00 hour
Stakeholders:			
Description			
Hi,			
there are some very useful flags for condor that jobsub_* should support, for example 'condor_q -r' output should be supported from jobsub_q and it is not, but it does work from condor_q and provides useful information for job debugging:			
<pre>[root@fifebatch1 ~]# condor_q -g gerard1 -r</pre>			
<pre>-- Schedd: fifebatch1.fnal.gov : <131.225.67.102:9615?sock=15922_a06a></pre>			
<pre>ID OWNER . SUBMITTED RUN_TIME HOST</pre>			
<pre>75312.0 gerard1 8/20 15:02 0+00:15:56 slot1@glidein_2708@fermicloud392.fnal.gov</pre>			
<pre>75312.1 gerard1 8/20 15:02 0+00:28:56 slot1@glidein_2709@fermicloud379.fnal.gov</pre>			
<pre>[root@fifebatch1 ~]# condor_q -g -r grep gerard1</pre>			
<pre>75312.0 gerard1 8/20 15:02 0+00:16:47 slot1@glidein_2708@fermicloud392.fnal.gov</pre>			
<pre>75312.1 gerard1 8/20 15:02 0+00:29:47 slot1@glidein_2709@fermicloud379.fnal.gov</pre>			
<pre>[root@fifebatch1 ~]#</pre>			
thanks, Gerard

History

#1 - 12/22/2014 01:39 PM - Parag Mhashilkar

- Assignee set to Parag Mhashilkar

#2 - 02/19/2015 01:19 PM - Parag Mhashilkar

- Target version set to v1.2

#3 - 08/18/2015 01:40 PM - Dennis Box

This could use more definition. What flags passed through to what commands?

#4 - 02/02/2016 09:44 AM - Dennis Box

- Target version changed from v1.2 to v1.3

#5 - 05/16/2019 04:16 PM - Dennis Box

- Target version changed from v1.3 to v1.3.2
