

Electronic Collaboration Logbook - Bug #6880

Some form fields are not preserved through the preview/edit process

08/28/2014 11:19 AM - Igor Mandrichenko

Status:	Resolved	Start date:	08/28/2014
Priority:	Normal	Due date:	
Assignee:	Margherita Vittone Wiersma	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Experiment:	-		

Description

Selected values of the select list with *multiple choices allowed* are lost.

Documenting Kyle's observation that clicking "Preview" on an entry resets some of the fields.

It seems to be the Selector/Multiple type that has this problem.

There are 4 screenshots:

- 1) the New Entry page showing form being filled, with "Type of Expertise Required" and "Method of Contact" set.
- 2) preview showing these set.
- 3) the active New Entry page after the preview, showing the fields have been reset
- 4) the next preview, showing these fields are empty.

History

#1 - 08/29/2014 04:08 PM - Margherita Vittone Wiersma

The cause of the problem has been identified. A new release will be made next week.
